The Animated Hero Classics®

Resource & Activity Book

Leonardo da Vinci

By: M. G. Johnson, Tony Salerno,
& Katherine Vawter

NEST Family Entertainment™

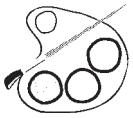
Parent and Teacher Guide

Studies have proven learning is enhanced through the use of several senses. A recent study shows that we retain 10 percent of what we see, 20 percent of what we hear, and 50 percent of what we see and hear. But when we see, hear and do, we retain 90 percent of the information.
(Lisa Marie Nelson, Ph.D., Author "The Healthy Family Handbook").

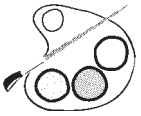
The purpose of this Resource & Activity Book is to help children learn and retain the story theme and principles in a fun and educational way. Your children will love coloring pages, solving puzzles, matching games, completing word searches, and much more! Each Resource & Activity Book also features challenging questions and activities for children from preschool through middle school. And in the rare case you don't know an answer, there's an answer key in the back!

LEVEL OF DIFFICULTY

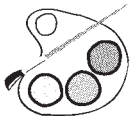
The activities in this book are designed in three levels of difficulty designated by symbols. The activities with one symbol are geared towards younger children while the activities with two and three symbols become increasingly challenging for older children.



Level One
Easy



Level Two
Intermediate



Level Three
Advanced

CURRICULUM RELATED

These educational activities are related to various educational discipline such as social studies (geography, history, culture), language arts (spelling, creative writing, grammar, literature), math (simple equations), and science. There are also activities for character development, video awareness, problem solving, music, and art. The subject codes below are for your convenience.

Art | Character Development | Culture | Geography | History | Language Arts | Math | Music | Problem Solving | Science | Spelling | Video Awareness | Writing

PERMISSION TO REPRODUCE

This Resource & Activity Book contains proprietary information, which is protected by copyright. All rights are reserved. However, any part of this book may be reproduced for personal or classroom use as long as it is not sold. Such permission does not include the storage of any part of this publication in a retrieval system or the transmission of such, in any form, or by any means, electronic, mechanical, recording, etc., without prior written permission of the publisher. This permission applies only to the printed material in this Resource & Activity Book and does not extend to any audio or video production released or distributed by NEST Family Entertainment™. βφΣΛγ λΠΣ φΘΔΣ

BREAK THE CODE

In early life Leonardo neglected his schooling to journey through the countryside. He wanted to learn firsthand and draw sketches of everything he saw. But he suffered throughout his life from lack of education. He tried to make up for it by educating himself. He had a keen interest in research for its own sake. What was the reason for his actions? Work the puzzle to find the answer. Match the Greek symbol under each blank with a letter in the Code Box and write the letter in the blank.

CODE BOX

RENAISSANCE RHYMING

Read the poems and see if you can discover the "who," "what" or "where" they are describing. Write your answer in the spaces provided.

Leonardo painted me upon a wall;
I'm over 29 feet long and over 13 feet tall.
Men are sitting down to eat,
With Jesus seated in the center seat.
What am I?

The _ _ _ _ _ _ _ _ _ _ _ _ _

Everyone knows of my beautiful smile;
That's why people gaze at me for awhile.
I'm in a museum for all to see.
I was painted by the greatest of men,
Leonardo da Vinci.
Who am I?

_ _ _ _ _ _ _ _ _

As a country, I look like a boot,
And the grape is my favorite fruit.
I boast of artists of great fame.
Leonardo is one of my artists' names.
Where am I?

_ _ _ _ _

Around the World in 1400

So many things were happening during this period of history known as the Renaissance. People were:

EXPLORING and INVENTING and DRAWING!

EXPLORING: New countries were being formed and new maps were being made. All around the globe the world was changing. In 1438 a new empire was formed by the Incas in Peru, while in Istanbul in 1453 an old empire, the Byzantine Empire, was coming to its end. During the year of 1483 explorers from Portugal mapped out the Congo River in the Kingdom of Kongo and in 1498 the explorer Vasco da Gama, also from Portugal, traveled east to the country of India. In 1492 Christopher Columbus set out from Spain, sailing west in hope of discovering the New World.

INVENTING: The Renaissance was a period when many inventions were made. It was during this time (1483) that Leonardo da Vinci designed his plans for a helicopter. In Germany (1455) the Gutenburg Bible was the first book ever printed with movable metal type. Also in Germany geographer Martin Benhaim made the first terrestrial globe. And in 1498 in China, a Chinese dentist invented the toothbrush.

DRAWING: Two of the most famous artists during the Renaissance were Leonardo da Vinci and Michelangelo. Both of these artists lived in Italy. Michelangelo sculpted from marble many statues for St. Peter's Church in Rome. Leonardo painted the Mona Lisa which can be seen in a museum in Paris, France.

Find and circle the underlined words in the word search.

LEONARDO'S CHARACTER

As you read through the paragraphs, write down in order the letters that are underlined. When you've done this, you'll discover one of Leonardo's character qualities that made him such an amazing man.

Leonardo da Vinci had such a H<u>U</u>MBLE spirit. He was a scholar, scientist, artist, and inventor, although he never boasted about his many accomplishments. He had a unique way of looking at the world around him. He also had a REP<u>U</u>TATION for being a wonderful artist. Two of his most FA<u>M</u>OUS works of art are "The Mona Lisa" and "The Last Supper." He worked quietly and away from the public eye because he D<u>I</u>D not want to attract attention to himself.

Over many years, he explored various subjects such as BIO<u>L</u>OGY and mathematics. He used his great intellect and H<u>I</u>S sense of wonder to come up with all sorts of creative ideas and <u>T</u>HEORIES. Although he was a great man, he did not try to show off all his wonderful inventions. Instead, he simpl<u>Y</u> wrote down his ideas for future generations to discover.

You, too, can demonstrate one of Leonardo's wonderful character qualities if you'll use your

THINGS TO THINK ABOUT & DO

NOTE TO THE TEACHER: These are activities for a group to discuss and think about.

1. One of the things that an artist must do is to pay close attention to details. Why do you think this so important for an artist? Do you think this is also important for a scientist? Why?

2. As a scientist Leonardo was curious. He liked to take things apart to see how they worked. Why do you think it is important for a scientist to be curious? How can being curious help you to learn about different things?

3. Whenever Leonardo did a science experiment he wrote careful notes about the things he did and the things he saw. Why do you think he did this? Do you think his notes were helpful to others who wanted to learn about science?

4. Here's a simple experiment for you to do. Take a cup of water and add three drops of blue food coloring. Now add three drops of yellow food coloring. What new color does it make? Mix different colors together and see what new colors you can make. Remember to keep notes on your experiments.
